

ARPUTHA JEROME.A

TARGET ROLE: FULL-STACK DEVELOPER

jeromeofficial07@gmail.com | +919597321738 | karaikudi, Tamil nadu | <https://www.linkedin.com/in/arputha-jerome/> | <https://github.com/jeromeofficial07>

PROFESSIONAL SUMMARY

Full Stack Developer with hands-on internship experience in developing responsive web applications using HTML, CSS, JavaScript, Python, Flask, and SQL. Experienced in building practical applications including a Smart Queue Management System, College Student Election Polling and Management System, and an e-commerce website. Strong foundation in frontend development, backend development, database management, problem-solving, and application design.

CORE COMPETENCIES

Full-Stack Development: Develop and maintain responsive web applications by integrating user-friendly front-end interfaces with reliable back-end logic, databases, and APIs

Programming: HTML, CSS, JavaScript, React, Python(FLASK), MySQL

Tools: Git, GitHub, VS Code, render

Professional: Problem Solving, Communication, Teamwork, Analytical Thinking, Time Management

Concepts: CRUD, Authentication & Authorization, API Integration, Database Design,

EDUCATION

B.Sc.Computer Science

[06/2024] – [04/2027]

St. Joseph's College (Autonomous), Tiruchirappalli

CGPA: [7.67/10] | Relevant Coursework : Data Structures & Algorithms(DSA), DBMS, Object-Oriented Programming, Web Development, Software Engineering, Operating Systems, Computer Networks,

Higher Secondary

[06/2023] – [04/2024]

Little flower roman catholic higher secondary school
Percentage: [74%] | Stream: Science.

PROFESSIONAL EXPERIENCE

Orvionar Tech | Full-Stack Developer Intern | [06/2026] – [08/2026]

- Developed and maintained full-stack web applications using Python, Flask, HTML, CSS, JavaScript, and SQL, following structured development practices.
- Designed and implemented responsive user interfaces with HTML, CSS, and JavaScript, focusing on usability, accessibility, and consistent user experience across devices.
- Developed backend functionality using Flask, including application routing, request handling, form processing, business logic, and integration between frontend and backend components.
- Designed and managed relational databases using SQL, implementing database schemas, CRUD operations, queries, relationships, and data validation for application requirements.
- Integrated frontend interfaces with backend services and databases to create functional, data-driven web applications.
- Tested, debugged, and optimized application functionality by identifying errors, resolving implementation issues, and improving overall application performance.
- Used Git and GitHub for version control, source-code management, project organization, and maintaining development history.
- Collaborated with mentors and team members to understand requirements, discuss implementation approaches, troubleshoot issues, and incorporate feedback throughout the development process.
- Maintained project documentation and organized source code, database components, and application assets throughout the development lifecycle.

SELECTED PROJECTS

Smart queue Management System — Full-Stack Web Application

- Developed a web-based queue management application for managing customer queues and token generation.
- Implemented frontend interfaces and backend functionality using Flask.
- Integrated SQL for application data management.
- Tech Stack: HTML | CSS | JavaScript | Python | Flask | SQL

College Student election polling & Management System — Full-Stack Application

- Developed a digital platform for managing college student elections and polling activities.
- Implemented interfaces and backend workflows for election management.
- Integrated SQL for storing and managing election-related data.
- Tech Stack: HTML | CSS | JavaScript | React | Python | Flask | SQL

Aura perfumes — E-Commerce Web Application

Developed a perfume-selling e-commerce website with a responsive user interface.
Implemented frontend and backend functionality using JavaScript, Python, and Flask.
Integrated SQL for managing application data.
Tech Stack: HTML | CSS | JavaScript | Python | Flask | SQL

CERTIFICATIONS & TRAINING

- Full Stack Developer Internship Certificate — Orvionar Tech Pvt. Ltd. | 2026
- Database Management System — NPTEL | 2027
